

Teorema de Pitágoras

Usando o teorema de Pitágoras, $a^2 = b^2 + c^2$,
determine a medida da hipotenusa.

$$a = ?$$

$$b = 4$$

$$c = 3$$

$$a = ?$$

$$b = 3$$

$$c = 4$$

$$a = ?$$

$$b = 8$$

$$c = 6$$

$$a = ?$$

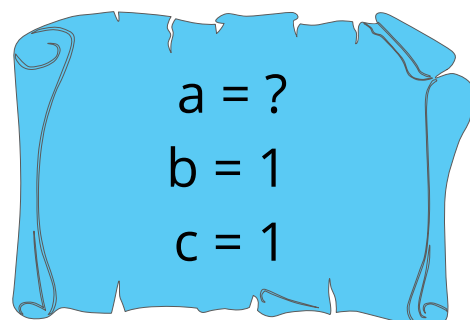

$$b = 6$$

$$c = 8$$

$$a = ?$$

$$b = 5$$

$$c = 12$$

Teorema de Pitágoras

Usando o teorema de Pitágoras, $a^2 = b^2 + c^2$,
determine a medida do cateto.

$$a = 5$$

$$b = 4$$

$$c = ?$$

$$a = 13$$

$$b = 5$$

$$c = ?$$

$$a = 13$$

$$b = 12$$

$$c = ?$$

$$a = 10$$

$$b = ?$$

$$c = 8$$

$$a = 15$$

$$b = ?$$

$$c = 9$$
